Feeding guidelines

PURINA® PRO PLAN® VETERINARY DIETS CC CardioCare™ is a complete dietetic pet food for adult dogs for the support of heart function in the case of chronic cardiac insufficiency. It is recommended that advice from a veterinarian

be sought before use and before extending the period of use. The recommended period of use is initially up to 6 months.

Adult	
Body weight (kg)	Daily feeding quantity (g/day)
2.5	70
5	110
10	175
15	230
25	325
35	410
45	485
70	650

For dogs over 70kg: for each additional 5kg of body weight, feed an additional 30g of dry pet food. Fresh clean drinking water should be always available.

Key benefits

Contains Cardiac Nutritional Blend composed of Amino Acids, omega-3 fatty acids, Medium Chain Triglycerides oil, minerals and vitamin E

Improves cardiac function in dogs with mitral heart murmur

Helps support cardiac insufficiency

Additional benefits & characteristics

- Improved cardiac function with 60% of dogs having reduction in left atrial size and 30% of dogs having a reduction in mitral valve regurgitation (heart murmur).
- Cardiac Protection Blend has been showed to slow the progression of mitral valve conditions at early stage.
- Contains a Cardiac Protection Blend including MCTs oil, an alternative source of energy for myocytes.
- Contains Taurine to help support healthy cardiac function.
- Supports cardiac function from an early stage.
